

Thursday - 7 December 1950

1. At the request of Senator Knowland, I conferred with him, and he made available certain additional information regarding his trip to China. He also authorized the destruction of the Russian materiel furnished us yesterday if it is necessary to do so for purposes of analysis.
2. Informed Mr. Harvey, Chief Clerk of the House Appropriations Committee, that CIA funds were included in the present supplemental request.
3. The Attorney General is required by Sec. 22 of the Internal Security Act of 1950 to report every case of aliens admitted under the 9th proviso. As this would jeopardize the security of cases brought in for CIA benefit, I have received informal clearances from Mr. Arens of the Senate Judiciary Committee Staff, and Mr. Besterman of the House Judiciary Committee Staff to request the Attorney General merely to report periodically that a certain number of aliens have been admitted under the 9th proviso, but a report has not been made in full in the interest of national security.
4. Delivered letter dated 5 October to Sen. McCarran (signed by Adm. Hillenkoetter)

CRC, 2/13/2003
